- Fig. 1. Dislocated shoulder-girdle, from specimen (B) preserved at Maredsous. Natural size. *cl.*, clavicle; *i.cl.*, interclavicle; *p.*, pectoral fin; *p.cl.*, post-clavicle; *p.te.*, post-temporal; *s.cl.*, supra-clavicle.
- Fig. 2. Restoration of shoulder-girdle. Same lettering.
- Fig. 3. Inner view of scales, in middle of body, from specimen (B) preserved at Maredsous.  $\times 2$ .
- Fig. 4. Ventral ridge-scutes, as seen in specimen B. Natural size.
- Fig. 5. Dorsal scales, towards middle of body, from type specimen preserved in the Zoological Museum of the University of Louvain.  $\times 2$ .

LI.—*Descriptions of Three new Reptiles and a new Batrachian from Mount Kina Balu, North Borneo.* By G. A. BOULENGER, F.R.S.

AMONG some Reptiles and Batrachians collected in March 1899 on Mount Kina Balu by Dr. Hanitsch, of the Raffles Museum, Singapore, and submitted to me for identification, there are examples of several new species, which he has kindly permitted me to describe.

*Gecko rhacophorus.*

Head moderately large, once and one third as long as broad; snout longer than the distance between the eye and the ear-opening, once and a half the diameter of the orbit; ear-opening round, its diameter one third that of the eye. Body and limbs much depressed, bordered with dermal expansions; fingers and toes fully half-webbed. Head, body, and limbs covered with minute granules intermixed with small, round, smooth tubercles; rostral a little more than twice as broad as deep, without median cleft; nostril pierced between several small scales; nine upper and ten lower labials; symphysial small, pentagonal; a series of six small chin-shields; spine-like tubercles on the sides of the head, the largest above the ear. A moderately developed scalloped membrane on each side of the body, scaled like the body and fringed on the edge. Abdominal scales flat juxtaposed granules. An angular series of præanal pores. Tail depressed, scaled like the body, bordered with a series of rounded lobes. Greyish above, speckled with darker and with wavy dark transverse lines; brownish beneath, throat with darker dots.
